# Air – Stayer

## Corner Metal “Fastay” – Box Assembly System

*Free standing and suitable for any location*

### Specifications:

Capable of assembling up to 14 boxes per minute, the **Air-Stayer** system has both flexibility and versatility in handling various styles of boxes and grades of materials. Assembles two piece boxes up to 12” (30.5 cm) deep. One piece boxes can also be assembled if the sum of the depth + width + tuck & flap does not exceed 12” (30.5 cm). Both # 4x and #5 Metal Edged Fastay can run on the **Air-Stayer Box Assembly System**.

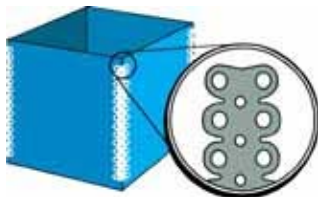

*When ordering an Air-Stayer, please specify which Fastay (#4x or #5) will be used.*
