RE: SENATE BILL 850

Pennsylvania's budget must not be balanced on the backs of children, vulnerable Pennsylvanians, or local taxpayers. We must preserve those organizations that provide our community with essential human services, education, and public safety.

We urge you to take a balanced approach to the budget shortfall that includes responsibility savings, use of reserve funds, and revenue increases.

Please do not abandon us and we will not abandon you!

Preserve our programs and protect our future.

Thank you for remember me, one of your constituents, during this challenging time.
