

# PROJECT UPDATE: August 21, 2009

Our goal during construction is to continue to provide seamless service and a consistent level of quality programming with a minimum amount of interruptions. The dates of construction are approximate, but we will provide regular updates and listen carefully to your questions and concerns.

The Y is a buzz of excitement as we continue construction. The sidewalk to the right of the new temporary entrance will be completely inaccessible due to construction beginning Monday, August 24. The bus stop will still be accessible and an additional picnic table will be in the yard near the playground for your comfort and convenience.

The jutting curbs at either end of the drop off area will be reconfigured beginning August 31. The fire hydrant will also be moved at that time. The first few handicapped parking spots in front of the current entrance will serve as a temporary drop off area during this construction.

As always, thank you for your continued patience as we build our new Y to help serve you and our community better.

*Member safety will be monitored throughout the construction. Any questions or concerns can be directed to Ro Molyneux, 215-348-8131, x 126 or [rmolyneux@cbfymca.org](mailto:rmolyneux@cbfymca.org).*

***Thank you for your patience and understanding.***
