

UNDER CONSTRUCTION

PROJECT UPDATE: May 7, 2010

Our goal during construction is to continue to provide seamless service and a consistent level of quality programming with a minimum amount of interruptions. The dates of construction are approximate, but we will provide regular updates and listen carefully to your questions and concerns.

Front entrance taking shape

Picture yourself strolling the walkway to **YOUR** new YMCA in a few short months! The inscribed brick courtyard will be to your right. **Bricks will be going in soon! Do you have yours?** Contact Bess Godin, 215-348-8131, x 124 or egodin@cbfymca.org today!

Two partitions being extended!

A partition in the Fitness Center and one in the hallway are being extended for finishing work in the hallway to the new Inez Lenfest Aquatic Center and the new locker rooms.

The area *indicated in yellow* between the glass on the right and the concrete bricks on the left will extend two feet out. The treadmills will be moved back two feet and available for use.

The area *indicated in yellow* between the two walls will be extended out to allow for finishing tiles to be placed in the new locker room.

Member safety will continue to be monitored throughout the construction. Any questions or concerns can be directed to Ro Molyneux, 215-348-8131, x 126 or rmolyneux@cbfymca.org.

Thank you for your patience and understanding.
